To Whom It May Concern:

Re: Allrestore Contracting

This past spring we contracted with Mr. Jim Hoctor and Allrestore Contracting to replace the roofs on our church buildings which had both been damaged by heavy wind storms.

We received bids from several different companies, and while Allrestore Contracting was not the lowest, we deemed theirs to be the most thorough and qualified. Mr. Hoctor worked with our insurance company, which initially wanted to repair and not replace the roofs, and obtained a more favorable adjustment for the church.

Allrestore Contracting performed the repairs in a timely and professional manner. They cleaned up and hauled away the debris and were pleasant to work with. Although there were a few minor details that needed to be rectified, they too were handled efficiently and quickly.

Recently our church parsonage was damaged by yet another storm and we again had the repairs done by Allrestore. The work was done quickly and to our satisfaction.

We would recommend that you seriously consider Allrestore Contracting for you needs.

Dr. Tony Forshey
