March 12, 2004

I have used Jim Hocter on various projects over the years as needed. Probably the most extensive project he completed for me was at a rental property on Cranwood Dr. in North East Columbus. He provided siding and gutter work on the whole house as well as repair work on the garage. The work was performed in a timely fashion and the quality was exceptional.

Jim used only quality materials and the work was done at a fair price.

I will use Jim on any future projects as they occur.

Sincerely,

  
C.J. Harrison  
Office Manager
