

May 19, 2008

To whom it may concern,

We want to commend All Restore Contractors for the work they performed in the spring of 2005. All Restore repaired damages and replaced our dry wall ceilings in our Family Life Center as a result of hurricane damage in 2004. The crew did an excellent job in completing the work in a timely fashion. We were very pleased with the quality of work All Restore provided.

Any company contracting with All Restore will be pleased with the workmanship and attention to detail. We recommend them without reservation.

Sincerely,

Alan Tison
